INTRODUCTION

Studio Providers Network South -

A network of artist's studios and creative workspaces in southern Hampshire.

Directory introduction -

Studio Providers Network South (SPNS) brings together the plethora of artist's studios and creative workspaces that currently exist across Southern Hampshire.

The diversity of studios, artists and buildings highlight the dynamic creative businesses that are currently growing in the South Hampshire region.

The network brings together managers and key people at these projects to share information, provide support, knowledge and the opportunity to network.

A key focus for the group is the future sustainability and growth of the sector.

Currently 14 independent existing studio providers, supporting over 300 visual arts, creative companies and design and makers demonstrate the importance of affordable studio space for creative's. The network also represents and supports new project in development, these are also listed in the Directory.

The affordable studio sector supports emerging talent and help them take root in the South, in turn this enriches the local community both culturally and economically.

The SPNS Directory serves as an immediate source of information not only for providers, but also for artists.

The directory contains essential information about location, price and the purpose of each studio.

The SPNS Directory gives immediate access to data on:

- Who the affordable studio providers are*
- Location of studios*
- Creative disciplines being supported by the sector*
- Facilities offered*

The ethos of SPNS:

- With greater networks come more opportunities*
- Collaboration not competition*
- Shared Vision and common purpose*
- Large and small organisations having an equal voice*
- Joint working on specific, time limited projects.*
- To link with national studio bodies such as NFASP*

'Over 76% of studio space is occupied by fine artists with painting, sculpture and installation / site specific work the dominant practices. 26% of the 5450 studios is occupied by craftspeople' – 2010 NFASP survey.
